INTRODUCTION

At Hami Contracting, we have developed a culture that promotes an injury-free environment and provides the safest workplace possible for our employees, subcontractors, clients and others who enter or are near our construction sites.

Through innovative training and education programs, we also provide our employees and subcontractors with the tools, knowledge and resources they need to increase safety, reduce risk and improve loss control on every project we manage.

We believe that every accident, and therefore every injury, is preventable, and we embed that philosophy into every project through a combination of technical field procedures and ongoing training programs. Every employee has stop-work authority --- if it's not safe, don't do it.

We also ask our subcontractors and partners to adopt our commitment to safety and health. The result is exceptional safety performance, even in hazardous work environments, severe weather, and remote locations. Our dedication to safety helps keep workers safe, and it also pays off for our customers. Their operating costs go down and productivity goes up because less time is lost to accidents. And our people go home to their families safely at the end of each day.

MISSION

"At Hami General Contracting, our mission is to provide exceptional construction services to our clients, built on a foundation of integrity, quality, and innovation. We strive to exceed our clients' expectations by delivering projects on time and within budget, while maintaining the highest standards of safety, sustainability, and professionalism. Our goal is to build lasting relationships with our clients and partners, and to be recognized as a leader in the construction industry for our commitment to excellence and customer satisfaction."

VISION

"At Hami General Contracting, our vision is to be the leading provider of high-quality, innovative construction solutions that exceed our clients' expectations. We strive to continuously improve our processes, embrace cutting-edge technology and methodologies, and foster a culture of collaboration, integrity, and excellence. Our goal is to create sustainable, functional, and beautiful spaces that enhance the lives of the people who use them, while building enduring relationships with our clients, employees, and partners."

VALUES

"At Hami General Contracting, we are committed to delivering exceptional construction and renovation services that exceed our clients' expectations. We uphold the highest standards of quality, safety, and professionalism in all our projects, and we strive to foster long-term relationships with our clients based on trust, transparency, and mutual respect. We value innovation, creativity, and sustainability, and we are dedicated to leveraging the latest technologies and techniques to enhance the efficiency and effectiveness of our work. We believe in investing in our team members' growth and development, and we provide them with the training, resources, and support they need to excel in their roles. Our ultimate goal is to deliver outstanding results that not only meet but also surpass our clients' goals and objectives, and to become a trusted partner for all their construction needs."
